

Double Turán Problem

Ray Tsai

November 2024

Contents

1	Introduction	2
1.1	Definitions and Notation	2
1.2	Problem Statement	2
2	Induced Case	3
3	General Case	4
3.1	Triangle-free case	4
3.2	K_r Case	4
3.3	Bipartite Case	4

1 Introduction

1.1 Definitions and Notation

Provide any necessary definitions, notation, and preliminary material.

1.2 Problem Statement

Clearly define the specific question or problem addressed.

2 Induced Case

Provide detailed proofs, explanations, or derivations of the results.

3 General Case

3.1 Triangle-free case

Explain how your results apply in practice or other areas of mathematics.

3.2 K_r Case

Provide concrete examples to illustrate your results.

3.3 Bipartite Case

Summarize your contributions and findings.
